Scope and ordering notes

Values reproduce the published model table. Weight is listed without a confirmed net/gross basis. Packing dimensions are packaging dimensions, not confirmed folded-product dimensions. Confirm units per pack and the selected model before quotation.

This specification sheet is not a test report, certificate or operating manual. Any listed load or voltage value retains the scope of the source page; request the applicable model and document scope before ordering. Unlisted dimensions are not inferred.

Mixed-model container orders are supported. MOQ: 20 ladders per model, with a minimum total order of 1 × 20-foot container. Confirm the final model mix before quotation.

Production usually takes 30-45 days after sample approval, subject to the selected models, quantities and production schedule. Samples are paid for by the buyer; freight is additional. The sample fee is deducted from the subsequent bulk order. Sample availability and charges are confirmed for the requested model.
